Professional Summary

B.Tech Computer Science student skilled in Python, machine learning and computer vision. Built AI models achieving **~88% accuracy** in handwritten text recognition and **~95% face detection accuracy**. Experienced in end-to-end ML pipelines and scalable solution development.

Education

UPES University

Bachelor of Technology in Computer Science (CGPA: 7.04)

Jul 2023 - Present

Dehradun, Uttarakhand

The Asian School

Class XII (Percentage: 80%)

Apr 2021 - Mar 2023

Dehradun, Uttarakhand

Technical Skills

Programming Languages: Python, C/C++, Java, HTML/CSS, JavaScript, SQL

Technologies/Frameworks: Node.js, Tailwind CSS, Flask

Database Management: MySQL, MongoDB

Others: Blender, GitHub, VS Code

Projects

Handwritten Text Recognition | Python, Tensorflow, Keras, OpenCV

Oct 2025–Dec 2025

- Designed and implemented a Handwritten Text Recognition system using CNN, BiLSTM, and CTC architecture for word-level text transcription.
- Trained the model on the IAM Handwriting Dataset, achieving ~88% recognition accuracy across uppercase and lowercase characters, digits, and punctuation.
- Gained hands-on experience in deep learning pipelines, including data pre-processing, model training, evaluation, and performance tuning for computer vision tasks.

Face Anonymizer | Python, OpenCV, MediaPipe

Jul 2025–Aug 2025

- Developed a face anonymization system using Python, OpenCV, and MediaPipe to detect and blur human faces in images, videos, and live webcam feeds for privacy protection.
- Integrated MediaPipe Face Detection with OpenCV to achieve ~95% face detection accuracy under normal lighting conditions in real-time video streams.
- Gained hands-on experience in real-time computer vision pipelines, including face detection, video frame processing, and performance optimization.

SkillSprint | Java, SQL

Mar 2025–Apr 2025

- Developed a Java-based backend system implementing role-based authentication and authorization, applying object-oriented design principles for modular and secure access control.
- Designed and integrated a relational SQL database, handling schema design, complex queries, and CRUD operations for efficient data storage and retrieval.
- Implemented core platform features including course creation, enrolment, content delivery, and user management through a structured and scalable application workflow.

Experience

Web Development Intern | Inside Softwares

Dehradun, Uttarakhand | Jun 2025 – Jul 2025

- Built and optimized responsive web pages using modern HTML, CSS, and JavaScript, improving UI/UX consistency, accessibility, and cross-device compatibility across multiple client websites.
- Conducted website performance and design audits, identifying usability, responsiveness, and layout issues, and contributing to structured improvement reports and fixes.

Certifications

- Deloitte – Data Analytics Job Simulation
- Tata – GenAI Powered Data Analytics Job Simulation
